Matt,

I know we have discussed using the 501c3 to expand nationally. And since we have wrapped up legislation and there are no foreseeable special sessions, I think it would be wise to transfer 80% of the funds from the 501C4 to the 501C3 which employs the staff and covers the operating expenses. Typically, in the past Rebecca moved funds as needed, with no policy or structure in place. However, I think it should be a standing policy that after the legislative session, remaining C4 money is used to develop the C3.

Current C4 is 145,193.17  
Transfer to C3 will be 116,154.54

This will also create a good push for legislative fundraising as we can communicate the need for funds to fight at the Capitol.
