

**FOR IMMEDIATE RELEASE: TEXANS FOR VACCINE CHOICE ANNOUNCES
HIRING OF EMILY CAMERON**

Keller, TX. April 28, 2026 - Texans for Vaccine Choice is excited to announce the hiring of Emily Cameron as our new Political Director. In 2022, in the prime of her life as a competitive bodybuilder and mom, Emily survived a life-threatening vaccine injury that reshaped her life and ignited her passion for medical liberty.

TFVC President and Co-founder Rebecca Hardy noted of Cameron, “Emily’s personal story and deep experience in Texas political strategy and grassroots mobilization will be invaluable as we continue to expand our impact at the Capitol and across the state. Emily’s passion resonates deeply with the families we serve, and her ability to turn conviction into action makes her a powerful addition to our team.”

On the occasion of her hiring, Cameron stated, “After everything my family and I have walked through, I feel a deep responsibility to stand up for others facing similar challenges. Texans deserve the freedom to make their own medical decisions without coercion or discrimination, and I’m honored to join Texans for Vaccine Choice in the fight to protect those rights and amplify the voices of everyday Texans.”

Emily and her husband, Colt, live in the Fort Worth area with their three children.

About Texans for Vaccine Choice

TFVC exists to protect and advance informed consent, medical privacy, and vaccine choice for all Texans. Learn more about Texans for Vaccine Choice here: www.texansforvaccinechoice.com.
